

Quality Policy

The Electrodyne Company is dedicated to quality and technological leadership in the design, development, and manufacture of permanent magnet products.

Electrodyne will achieve this goal by.....

- operating a Quality System in compliance with the requirements of ISO 9001:2015,
- providing products and services that meet the specifications and requirements of our customers,
- eliminating deficiencies in products and processes,
- and involving employees in continuous improvement.

W. Scott Blume, President
